

SERVICE AREA MAP

These are representative of our physical current points of presence, but we can service the entire state of Oregon. Ask us how!

Our gigabit powered network continues to grow and meet the data demands of all businesses.

“The best thing about our fiber [connection] is that I don't have to think about it. It has been proven to be a fast, reliable, secure, and maintenance free solution for our multiple site connectivity...”

—Paul Mattson, Boise Cascade

COMMUNITY PROJECTS

Hunter is proud to play an active role in making Southern Oregon a better place to live. Our community projects have helped multiple organizations, some of which are:

- 24 Local School Districts
- Rogue Valley International-Medford Airport
- Britt Festivals
- Oregon Shakespeare Festival
- Jackson County Expo
- Josephine Library—Local Library Institutions
- Craterian Theaters
- Southern Oregon High Tech Crimes

HUNTER COMMUNICATIONS

Premier Voice Services

ESTABLISHED 1994

LETTER FROM RICH

In 1994, we started out with the vision to build Southern Oregon's first pure gigabit powered network. Since then, we've gone from construction to a full service provider that offers over 1 Gbps Internet speeds, 99.999% reliability and voice services over our network. Headquartered in Medford, our team has grown into providing service for local area networks, wide area networks, and everything in between.

Hunter's pure fiber backbone (the largest, privately held fiber optic network in the State of Oregon) and last mile infrastructure connects Southern Oregon's Educational Systems, Healthcare Facilities, Cellular Networks, Financial Institutions, City and County Governments, and Businesses of all sizes throughout Oregon to a dependable, commercial grade communications network.

By utilizing new high-tech phone switching, we also have the capability to provide enterprise level voice service, which combined with our all fiber optic backbone provides an extraordinary platform with the ability to fulfill all potential telephone service needs.

It's incredible how far we've come and we are even more excited for what the future holds for Hunter, Southern Oregon, and the greater Pacific Northwest.

—Rich

As a local Medford company, Hunter is proud to offer superior voice services, affordable prices, and excellent customer service.

“ Switching to Hunter Communications for our Internet and telephone service has been one of the best 'upgrades' we've ever done. By partnering with Hunter, we've ensured that our bandwidth and service reliability needs are met now and into the future as we become increasingly dependent upon Internet connectivity. ”

—Scott Dewing, Director of Technology, St. Mary's School

TRADITIONAL PHONE SERVICE

You can trust Hunter to bring to you the voice quality you need along with the features you want and a price you can afford. With customizable packages and services, Hunter will tailor a phone plan to meet your company's needs.

▶ LOCAL AND LONG DISTANCE CALLING

Hunter offers high quality and reliable telephone service to all businesses located in Medford, Oregon. Enjoy competitive rates for local, long distance, and international calling.

▶ SAVE MONEY

Whether you are a small business or a large enterprise, Hunter can save you money compared to the competition.

▶ LOCAL CUSTOMER SERVICE

At the end of the day, you want a local provider who is easy to reach and will offer you the attention and care you deserve. Hunter offers outstanding service, qualified technicians, and cost effective packages.

FEATURES INCLUDE

Auto Attendant Answer inbound calls with customized menu options including dial by name, departments, hours of operations, directions etc.

Automatic Recall Dial a code to find out who called and automatically return the call. If the caller is busy, Automatic Recall retries the call periodically until it is successfully completed.

Call Forwarding Forward all incoming calls to a different number. With Call Forwarding-Fixed, calls are automatically forwarded to a pre-determined number, and with Call Forwarding- Variable, the subscriber can change the forwarding number when desired by dialing an access code.

Caller ID with Call Waiting See the name and number of incoming calls even when you are on the phone.

Find-me-follow me Redirect incoming calls to your phone to up to six different phone numbers. With this service, you don't need to miss a call.

Incoming Call manager(ICM) Manage your calling features online--activate new features or set up number lists for advanced features such as selective call forwarding or rejection.

Line Hunting Instead of using a single forwarding number, Line Hunting allows you to route incoming calls from a single number to multiple phone lines in sequence until one that is found can accept the call.

Remote Access to Call Forwarding Turn the Call Forwarding feature on, off or change the forwarding number from any touch tone phone.

Voicemail No matter where you are - on the phone or on the go - make sure you don't miss important telephone calls. Check messages over the phone from anywhere or receive them via email.

HOSTED PBX

A Hosted IP Phone System gives you all the benefits of a traditional phone system without any upfront capital expenditure or the hassle of maintenance. A "hosted" service means that your business accesses the services it needs through the "cloud." As a cloud-based system, Hosted PBX service from Hunter is a great solution for businesses looking for voice services that are cost-effective, reliable and feature-rich.

BENEFITS OF HOSTED PBX

▶ Affordable

Less upfront capital expenditures and fewer maintenance fees. Unlike a traditional phone system, with Hosted PBX you do not need to buy, install and maintain expensive on premise hardware. All you need are VoIP-ready handsets.

▶ Easy to Use

Unlike complex traditional phone systems that require significant IT support, with Hosted PBX service you can quickly add phone lines and features via a simple web interface.

▶ Monthly Savings

Lower monthly phone bills with cost effective rates for local and long distance calling.

▶ Scalable

As your business grows, add more phone lines and features on demand via a simple interface.

▶ Advanced Features

You won't need to sacrifice all the features you currently know and rely on, you'll only get more.

Hunter will save you money! Show us your phone bill, and we'll show you how. Email your bill to us at sales@hunterfiber.com.
